What are the best solar panels in the UK?

According to our findings, the brands with the best solar panels include REC Group, Sunpower, and AIKO. What is considered the "best" solar panel in the UK will vary depending on who you ask, and what metrics you value. Some homeowners may prefer a low-cost solar panel over one that's highly efficient, for example.

How do I choose a solar panel brand in the UK?

Product availability in the UK can also determine which brands installers are able to fit. When you talk to different installers (we'd recommend getting three quotes), use our research on solar panel brands to help you choose between them. Read our full buying advice for solar panels.

What are the most powerful solar panels?

Efficiency Trina's Vertex N solar panel range takes the pick for the most powerful solar panels on today's market, with a power output between 685 - 710W. This makes them a great option for large homes with high energy demands, or even for very small homes with limited roof space, as solar expert Josua Pearce explains:

Which REC Solar panels are the best?

Not including the other solar panels on the list, we've identified REC's Alpha Pure-RXR solar panels as the best across all of the main categories that we've assessed. One of the most notable selling points is the 25-year product and performance warranty, a strong indicator of REC's quality craftsmanship.

Which solar panels have the highest efficiency?

Efficiency Although any of the options on this list offer excellent solar panel efficiency rates, the AIKO COMET series has the highest efficiency rate of up to 25.2%. This means these panels are capable of converting 25% of the sunlight that hits them into electricity.
