

2025 New solar power generation home roof

Are new homes set to be energy efficient by 2025?

If new homes are to be built with "world leading" energy efficiency standards by 2025, legislation needs to be passed by 2022 at the very latest. This is because new standards only apply to buildings that do not have planning permission.

What are the plans for rooftop solar in 2020?

programme that targets adding 18GW of rooftop solar via discom incentives. Under the recently issued Draft Electricity Amendment Act 2020, several progressive measures are also planned for the renewable energy sector such as introducing a pan

Can rooftop solar panels meet our energy needs?

We have published research by the UCL Energy Institute into the true potential for meeting our energy needs if we made full use of the rooftop space available for solar panels across the country.

Should new homes in the UK have solar panels?

In the letter they are asking the housing minister to mandate that all newly built homes in the UK be fitted with a "meaningful array" of solar panels, as well as the current promise of a mandate for heat pumps or low-carbon heat networks.

How much solar energy does the UK need by 2035?

The Climate Change Committee (CCC) is an independent group of experts who advise the government on how to reduce our carbon emissions. It recommends that 54GW of solar capacity is needed by 2035. Indeed, the UK government has now set an even more ambitious target of 70 GW of solar energy by 2035.

How many GW of solar energy is needed by 2035?

It recommends that 54GW of solar capacity is needed by 2035. Indeed, the UK government has now set an even more ambitious target of 70 GW of solar energy by 2035. CPRE supports the wind and solar targets, but our support depends on four criteria: energy efficiency, minimising impacts on the countryside, community involvement and ethical sourcing.

The real game changer is the plan to introduce solar-related regulations for inclusion in new builds in 2025. Something that we in the industry think is long overdue. We work with many property developers who see the ...
