Who are Metalex?

Metalex are specialist Aluminium suppliers of aluminium products in their many shapes, forms and grades. Metalex supply a full range of Aluminium Plate, Aluminium Bar and Aluminium Extrusion and process and deliver Aluminium to meet your specific requirements.

Who makes electric vehicle Battery trays?

FONNOV ALUMINIUM is an aluminum extrusion manufacturer of electric vehicle battery trays. We produce and assemble aluminum extrusions for electric car battery tray (also called ev battery tray, ev battery box, or ev battery enclosure). We produce custom aluminum trays with aluminum 6061T6, 6082T6 for electric vehicle battery pack.

What is 6061T6 aluminum used for?

We produce 6061T6 custom aluminum extrusions for electric vehicle battery trays (some customers request 6082T6 aluminum). The 6061 extruded aluminum is commonly used as structural material for new energy car battery trays, electric truck battery pack and EV battery box.

What is 6061 extruded aluminum used for?

The 6061 extruded aluminum is commonly used as structural material for new energy car battery trays, electric truck battery pack and EV battery box. The 6061 aluminum is of moderate strength, excellent formability, and good corrosion resistance, so it is widely used in the manufacturing of automobile parts.
