

# Eternal Solar Solar Panels

Who is eternal energy systems?

Eternal Energy Systems Ltd is based in Whitstable, Kent having formed in 2006 to design and install renewable technologies across the South East. THIS IS WHAT WE DO... We specialise in solar thermal and photovoltaics - and design bespoke systems for each location, from domestic to commercial projects.

Who is solar thermal & photovoltaics?

We specialise in solar thermal and photovoltaics - and design bespoke systems for each location, from domestic to commercial projects. Renewable technologies are our core business - we aren't an electrical or plumbing firm doing occasional installations or a new business set up to exploit the tariff.

Who would you recommend for solar panels?

I would 100% recommend Eternal Renewable Energy - friendly guys with the correct skills and customer service. Our solar panels were originally installed with a chimney shading them for half of the day until the sun moved around. We asked Dominic if there was anything that could be done about this because we were losing a lot of generation.

Community solar projects managed by Eternal Energy typically offer subscribers between 5%-15% savings! Those currently on government assistance programs may be eligible for even higher savings, including up to 20%. Community solar ...

The solar system was commissioned in November 2006 and I was immediately impressed with the amount of hot water the Thermomax 30 tube solar panel produced. Since April this year the hot water has consistently reached 60 degrees C and Eternal Energy had installed a huge cylinder with a capacity of 290 litres.
