Taizhou Suneast New Energy Technology Co., Ltd is a high-tech enterprise specializing in solar photovoltaic bracket design, production, installation and related consulting services. Company headquarters is located in the famous "hometown of stainless steel" Taizhou, Jiangsu province town, combined with local advantage resources, since 2005 the ...

Abstract: In order to study the mechanical properties of the fixed photovoltaic bracket and its failure under wind load, the full-scale photovoltaic bracket specimen was designed and the destructive test was carried out by means of static loading. Through simulation and mechanical analysis, the design suggestions for the fixed photovoltaic support are given.

Optimizing the molecular structures of organic photovoltaic (OPV) materials is one of the most effective methods to boost power conversion efficiencies (PCEs). For an excellent molecular system with a certain conjugated skeleton, fine tuning the alky chains is of considerable significance to fully explore its photovoltaic potential. In this work, the optimization of alkyl ...
