

Gearbox accumulator repair costs

How much does it cost to repair a gearbox?

Gearbox labour costs average around £400 to £600. This is because it would take roughly 8 to 10 hours to remove the damaged gearbox, repair it, and reinstall it. Mechanics cost, on average, £40-60 per hour in the UK. Because gearboxes are such complicated parts, there are a few different failure modes.

How much does a new gearbox cost in the UK?

The cost of a new gearbox in the UK can vary significantly depending on the type of gearbox and your vehicle's make and model. A manual gearbox replacement can cost anywhere from £500 to upwards of £3,000. An automatic gearbox replacement can cost anywhere from £1,000 to upwards of £5,000.

Do automatic gearboxes need to be repaired?

Automatic gearboxes include high precision components that need to be stripped and rebuilt to the most accurate tolerances. So don't trust yours to just any mechanic or your repair could turn out to be short-lived.

Can a garage buy a reconditioned gearbox?

A garage can often source a reconditioned unit instead of a very expensive gearbox from the main dealer. As complexity and precision are required to transmit the engine's power efficiently, gearboxes require significant amounts of materials and skill to produce. This means they can be expensive to make, repair, and replace.

How can I reduce my gearbox replacement costs?

1) A simple way to reduce your gearbox replacement costs is to choose a reconditioned gearbox. A difference is made between partially reconditioned gearboxes, where only defective wear parts have been replaced, and fully reconditioned gearboxes, where all wear parts have been replaced as a precaution.

How long does a DSG gearbox repair take?

The duration of a DSG gearbox repair can vary based on the extent of the damage and the specific repairs needed. Minor repairs may take a few days, while more extensive repairs might take several weeks. What should I do if my DSG gearbox fails while driving?

The average cost of a gearbox replacement is between £2,000 - £5,000 in the UK. The cost is made up of the material cost of a new automatic gearbox (£2,400 - £3,800) and the labour cost for the replacement (£800 - £1,200).

The most reliable accumulator ever made. Ready to install, no drilling required. Designed to repair DSG 7-speed gearbox.
