

# How is the Gaojing photovoltaic panel

Who is Gaojing solar?

Gaojing Solar focuses on the R&D and manufacturing of photovoltaic silicon wafers, and has mastered a number of core technologies in the R&D and manufacturing of large-size silicon wafers. It has two production bases of Zhuhai Jinwan 50GW large-size monocrystalline silicon wafers and Qinghai Xining 50GW monocrystalline pull rods.

When did Gaojing solar start a 50GW solar project?

On the morning of August 19, 2021, Gaojing Solar held the first phase trial production and the second phase commencement ceremony of the 50GW large-size silicon wafer project in Zhuhai Jinwan. This marked the official start of this new photovoltaic energy key industry project with a total investment of 17 billion yuan.

What will be the output value of Gaojing solar project in 2022?

It is understood that the first batch of silicon wafer products put into trial production in the first phase of the Gaojing Solar Project has been widely welcomed by the market. The orders have been locked for 70% of the production capacity in 2021 and 2022, and the output value in 2022 will exceed 14 billion.

What is Gaojing solar & Zhuhai state-owned Assets Supervision & Administration Commission?

In December 2020, Gaojing Solar and Zhuhai State-owned Assets Supervision and Administration Commission signed a cooperation agreement for the investment of new photovoltaic energy projects with a total investment of 17 billion yuan.

How many jobs will Zhuhai have after the Gaojing solar project?

After all the production capacity is reached, the annual output value will be about 27 billion yuan, creating 6,000 jobs for Zhuhai. It is understood that the first batch of silicon wafer products put into trial production in the first phase of the Gaojing Solar Project has been widely welcomed by the market.

How will Gaojing expand its production capacity?

Furthermore, Gaojing will expand its production capacity by building 50GW of monocrystalline silicon rods and 30GW of monocrystalline silicon slices projects in Yibin City, Sichuan Province, with a total investment of 22 billion yuan. Then the total production capacity of Gaojing Solar wafers will reach 80GW per year as the Yibin base completed.

Hebei Gaojing Photovoltaic Technology Co.Ltd (Former Hebei Yatong Photovoltaic Technology Co.,Ltd)was established in 2015 and is located in west of beautiful Dabeisu village,Hequ Town,Ningjin County,Xingtai City,Hebei Province,China is professional dedicated to researching and developing,producing and selling solar panels.The company mainly produces polycrystal ...

In conclusion, Hebei Gaojing Photovoltaic Technology Co., Ltd. is a leading solar panel manufacturer that is committed to providing its customers with high-quality products and services. The company's commitment to excellence has earned it a reputation as a reliable supplier of solar panels in the global market.

PVTIME - Guangdong Gaojing Solar Technology Co., Ltd. (hereinafter referred to as "Gaojing Solar") announced on June 10 that its production capacity has reached 30GW ahead of schedule in its Zhuhai Base.

Hebei Gaojing Photovoltaic Technology Co., Ltd Solar Panel Series GSMB320-370-72. Detailed profile including pictures, certification details and manufacturer PDF

Hebei Gaojing Photovoltaic Technology Co.Ltd was established in 2015and is located in west of beautiful Dabeisu village,Hequ Town,Ningjin County,Xingtai City,Hebei Province,China.We are a Solar module Factory. main products: Monocrystalline 150W 170W 200W 250W 300W 450W 550W. Polycrystalline 150W 250W 300W.
