Call our San Francisco solar installers at (888) 815-6633 today to learn more. Why Choose Us for Solar Panel Installation? SolarUnion is a full-service solar electricity developer founded in the heart of Silicon Valley.

Who is a San Francisco solar installer?

Our San Francisco solar installer at SolarUnion are dedicated to helping you harness the clean and renewable power of the sun in your home. We deliver the high-quality service, parts, and designs you need--creating long-lasting, intelligent systems that can grow with you into the future.

Can San Franciscans switch to solar?

There's a wealth of local incentives that are meant to help San Franciscans switch to clean energy, too. One of the most impactful incentives for homeowners and renters alike is the Solar on Multifamily Affordable Housing program, funding solar installation for affordable apartments. Can solar panels save you money?

How much does solar cost in San Francisco?

The average price of solar is about \$2.14 to \$3.22 per watt in San Francisco, so anything in that range is a fair price. Some prices may be too good to be true. If your installer quotes you way below the average price in your area, proceed with caution.

Should you get a solar loan in San Francisco?

Solar loans are popular among homeowners because you don't have to have the money for the installation upfront, but you get better lifetime savings than with a leased system. You also get to directly use the incentives (tax credits, rebates, etc.) available in San Francisco, rather than a leasing company retaining them.

Are solar panels worth it in San Francisco?

Solar panels might be worth it in San Francisco due to the high electricity costs. Plus, federal and state incentives and California's net metering program can help you bump down the costs. Does San Francisco offer a solar tax credit? San Francisco doesn't offer a solar tax credit.

While solar is expensive, it often pays off. The average San Francisco, CA homeowner will save \$112,770 over 25 years (the warranty term of most solar panels) on electric bills by going solar. The best part is that your system will pay for itself in an average of just 4.87 years.

When you install solar panels in San Francisco, another of the Solar Incentives available include, the federal solar investment tax credit will help offset the cost. It's commonly referred to as the ITC investment tax credit. As of 2020, the federal tax credits available to San Francisco residents is up to 20% off the cost of the installation ...
