

# Lazy Hong Kong style curling iron style

How do you curl hair on a curling iron?

Choose the direction you want the hair to curl, either toward your face or away from your face. Focus on keeping the section flat while wrapping it around your curling iron. Remember, don't twist the hair around the iron. Continue to wrap the hair around the iron until you get to the ends.

Can I curl my hair with a flat iron?

We recommend practicing with your curling iron or flat iron in the OFF position. This will allow you to practice these new curling hair techniques without burning yourself. After you feel confident, you can turn on the heat and begin to curl your hair. Always apply a heat protectant spray when you curl hair.

Which curling iron is best for long hair?

You simply work your way down by clamping your hair in sections and watch the magic happen-like the crimpers of yesteryear but more elevated. This triple-barreled curling iron is a particularly good bet for those with long hair, since it styles quickly and with minimal effort.

How do I practice curling hair without burning myself?

We recommend practicing with your curling iron or flat iron in the OFF position. This will allow you to practice these curling hair techniques without burning yourself. After you feel confident then turn on the heat and curl your hair. Always use a heat protectant spray when you curl hair.

How to create loose curls?

We will show you how to create loose curls by wrapping the hair around the barrel of the iron and then changing directions. How to create tight curls by wrapping the hair around the barrel in a flat motion or twisting the hair before wrapping it around the barrel. Then we will teach you an elegant wave by combining two of these four techniques.

Should you use a curling iron or a flatiron?

Like flatirons, a curling iron is a relatively basic heat-styling tool, but a few tips can help ensure best results. First, your hair should be dry before curling, celebrity hairstylist Joseph Maine tells Glamour. He also suggests using a heat protectant both while the hair is wet and once it's dry.

Why We Love It: We tried three different-sized barrels--0.75-inch, 1.25-inch, and 1.5-inch--and found that each one delivered on its styling promises (beachy waves for larger sizes, tighter ...
