

Photovoltaic panel hs code query

Where can I find HS code for solar panels?

By clicking "Find Related HTS Code" button above, you can find 6 digits universal HS Code (which is valid for almost all countries in the world) and declarable codes for EU, UK, USA, Japan, China, India and Turkey (e.g. 10 digits TARIC code for EU countries or HTSUS code for USA) of "photovoltaic cell solar panels".

Can a photovoltaic cell be used for an export declaration?

Can be used for an export declaration. Photovoltaic cells assembled in modules or made up into panels; Examples: - Photovoltaic cells assembled in modules (500 watts, 1200mm x 600mm x 40mm) ...

What are HS codes?

Your HS codes determine your compliance, your admissibility, and which supply chain advantages you can capture. See how precision classification can protect your finances and unlock greater strategy. Your faster, easier application process starts right now. Clear goods quickly. Use the data for strategy. Consult with experts for data-led wins.

What is a solar panel?

Description auto translated : The product is a solar panel consisting of 120 smaller cells assembled in an aluminum frame, with a protective glass plate in front. The item has two connection cables with a female plug and a male plug respectively. The item is intended for mounting on a roof. It can convert sunlight into electricity.

What is a HTS code?

The first six digits of the HTS code identify all items in international trade and are the same for all countries that use the HTS. The last two or four digits are country specific. In many countries these last four digits provide the duty rate and balance of trade statistical reporting suffix for the imported goods.

How much does a solar panel weigh?

The item is equipped with three ByPass diodes to rectify the current and a waterproof box to protect the wires where they are connected. The item has 120 cells that are mounted in 20 rows with 6 pieces in each row. The assembled solar panel measures 1755 x 1038 x 35 mm and weighs 20 kg.

By clicking "Find Related HTS Code" button above, you can find 6 digits universal HS Code (which is valid for almost all countries in the world) and declarable codes for EU, UK, USA, ...

The tariff code for solar panels is 85414011. What is HS code 85414012? HSN code 85414012 is for solar cells for the generation of electricity, including solar cells assembled in modules or made up into panels; mounted on a support with frames and other accessories. ... The GST HSN code for solar panel installation is 99749900. READ Corn - GST ...

HS Code for photovoltaic_generator_battery_cell_or_panels By clicking "Find Related HS Code" button above, you can find 6 digits universal HS Code (which is valid for almost all countries in the world) and declarable codes for EU, UK, USA, Japan, China, India and Turkey (e.g. 10 digits TARIC code for EU countries or HTSUS code for USA) of "photovoltaic cells".

The solar panel industry in China benefits enormously from its capacity for large-scale manufacturing and an efficient supply chain. This is made possible by streamlined production techniques, government subsidies, and access to cost-effective labor and raw materials. These factors contribute to lower production costs, enabling Chinese ...
