How do you sell solar panels?

When it comes to solar sales, how you pitch solar panels is one of the most critical factors determining whether you close the deal. When you build your solar sales pitch, implementing these three steps will give you the best chance to sell as much solar as possible through education, homeowner involvement, and trust.

What is a solar panel installation proposal?

A solar panel installation proposal is crucial for both the solar installer and the customer. It sets out all the essential details of the solar project, describing where the solar panels will be placed, how they'll be installed, and the benefits of using solar energy.

How many homes have rooftop solar panels in 2024?

According to the U.S. Energy Information Administration, over 4,227,503 million homes have rooftop solar panels as of February 2024. With such a massive demand for solar power, solar companies can stand to make a handsome return with the right positioning and marketing strategy.

How to sell solar in a door-to-door sales pitch?

Help the environment by using solar energy. The solar seller should also let their customers know that solar is a wise investment as it can give them tax credits and incentives to choose Solar, making solar an attractive option in today's economy. The final part of your door-to-door solar sales pitch will be how to trade and make the purchase.

How to create a high-converting solar sales pitch?

First things first, you have to understand your audience to create a high-converting solar sales pitch. Then build an ideal customer profile (ICP) to match. In the solar industry, ICPs are normally: Homeowners: Since renters don't own the homes they live in, they won't want to talk to you about solar. Focus your energy on homeowners.

How do you write a solar sales pitch?

The solar salesperson should talk about solar energy in an easy-to-understand way, using phrases like "turn the sun into electricity" or "use free solar energy for your home." The next part of a door-to-door solar sales pitch is the value proposition. As you write this section, you need to focus on two things: solar and solar benefits.
