

# Photovoltaic solar panel return and refund

Are solar panels being refunded if they've been mis-sold?

Thousands of pounds are being refunded to those who were mis-sold solar panels and, in many cases, it is the financial institutions that underwrote the loans who are having to settle claims for mis-selling.

Can I claim my solar panels if they go out of business?

So, if you funded your solar panels via a loan, credit agreement or by credit card, you may still be able to make a claim even if the original installers have gone out of business.

Will new solar homes get a payment from suppliers?

New solar homes and businesses creating and exporting electricity to the grid will be guaranteed a payment from suppliers under new laws to be introduced by the government this week (Monday 10 June).

Would you take Finance on solar PV?

I would never take finance on solar PV. PV panels can vary in performance just based on weather factors alone, let alone due to mechanical faults. It can also vary depending on how much of the PV generated you actually use rather than how much gets exported to the grid.... It looks like you're new here. Sign in or register to get started.

Can I make a claim if I was mis-sold solar panels?

Making a claim is your right if you were mis-sold solar panels and if you'd like to get your claim started use the form below to arrange a free, no-obligation call from a claims advisor today. Unsure If You Could Claim? Our GDPR privacy policy explains how we protect your data. We will NEVER spam or harass you.

What if my solar panels are not reducing my electricity bills?

If you believe this happened to you, get in touch and find out if you have a valid claim. If your solar panels are not reducing your electricity bills or providing you with the financial subsidies that you were originally promised by the company who sold them to you, you may be eligible for compensation.

The really cool bit is the photovoltaic (PV) tech that generates the solar electricity through solar PV panels. The panels are made from materials like silicon. When the surface of the silicon is hit by sunlight, it makes the electrons whizz around on the surface and creates electricity.

Replace the defective solar panel or . 2. Refund the ... damage how so ever caused or any costs associated with the return of faulty products.
