Sold individually, 2 rails required for each row of solar panels o 2560mm Rail, for 3x 800-825mm width panels in portrait layout, HS-8800 o 3405mm Rail, for 4x 800-825mm width panels in portrait layout, HS-8801 o 4200mm Rail, for 5x 800-810mm width panels in portrait layout, HS-8802 Rail splice, HS-8803 Sold individually, required to join two lengths of rail in line End Clamps, 35mm, ...

We combined our 3.1 rails with locally sourced 2-inch schedule 40 pipe to build a simple, low-cost structure with columns of 3 or 4 modules in landscape orientation. Pole Mount Side of Pole and Top of Pole options that accommodate modules from 10 watts to 300+ watts.

The 156-inch SolarMount rail (part number 300011) is my best bet. Each row of modules requires two rails (top and bottom). This system, which has two rows of modules, requires four rails. Further, since I will be splicing two 156" rails in order to reach the required 294.6" rail length, I will need a total of eight 156" rails.
