Which companies are leading the global PV module market in 2022?

A total of 18 Chinese companies were selected in the top 20 list, with a total output of more than 270GW in 2022, gradually taking over the global PV module market with their unique advantages. LONGi, the king of the PV industry, supplied 46.76GW of modules in 2022, up 21% year-on-year.

Who makes the most solar panels in 2022?

JA Solar, Canadian Solar, and Risen Energy rounded out the top six, in a year dominated by large-format modules. TrendForce says in a new report that the top six module manufacturers in 2022 shipped around 205 GW to 211 GW of PV panels, accounting for 76% to 78% of 270 GW of module demand last year. All of the main manufacturers are based in China.

Who are the top 20 solar module manufacturers?

The module shipments of the top 20 manufacturers increased by more than 50% year-on-year, of which the shipments of the top four accounted for 59.95% of the total shipments of the top 20. The major players maintained their leading positions throughout the list. The top four were LONGi, Jinko, Trina and JA Solar, the same order as previous year.

What are the top solar panel brands in 2024?

February 13, 2024 - Today, SolarReviews released its annual solar panel brand ranking list, and Qcells has been crowned the top solar panel brand for the second year in a row! Details around the ranking list can be found here, but here is a quick snapshot of the top 2024 solar panel brands:

Who makes the best solar modules in 2022?

TrendForce has ranked the top six module manufacturers by shipment volume in 2022, with Longi topping the list, followed by Trina Solar and JinkoSolar. JA Solar, Canadian Solar, and Risen Energy rounded out the top six, in a year dominated by large-format modules.

How big will PV panels be in 2022?

On the module front, large-format PV panels may reach 767 GW with a market share of around 90%, TrendForce said. "Among them, 210 mm module capacity will reach 508 GW, a 68.14% increase from 2022, with a market share of 59.62%, indicating continued strong growth," it concluded.
