

# Sample of the qualification list of photovoltaic support companies

What is a solar photovoltaic system protection qualification?

know solar photovoltaic system protection techniques and components. This qualification is aimed at experienced and practicing electrical operatives. On application for the qualification, the Approved Centre (AO) will carry out an Initial Assessment of the learner's capability to complete the qualification.

What qualifications do I need to install solar PV?

Gain a nationally recognised qualification from LCL Awards in installing & maintaining small-scale solar PV systems. Course meets MCS registration requirements.

What is a SPV qualification?

This qualification comprises of knowledge/understanding and performance units, which between them cover the skills, knowledge and understanding required in the installation of small scale SPV systems, e.g. dwelling installations.

What is a 3 day solar PV installation course?

Such a course is a requirement of the Minimum Technical Competency document for PV installers and is recognised by the MCS operators as evidence of suitable training. This 3 day course will enable candidates to select the most appropriate solar Photovoltaic system for a property to meet the client's needs and to commission and handover the system.

What is the collection capacity of a PV module?

collection capacity the suitability of the building fabric in relation to the installation of the PV modules  
1.2 Confirm that the tools, materials and equipment required for the installation of cabling from module(s) to d.c. isolator  
d.c. cabling from in accordance with manufacturer's requirements and the standards

This 3 day course will enable candidates to select the most appropriate solar Photovoltaic system for a property to meet the client's needs and to commission and handover the system. It will ...

Gain a nationally recognised qualification from LCL Awards in installing & maintaining small-scale solar PV systems. Course meets MCS registration requirements. Find a centre near you

we provide economical solutions to complex problems including time-of-day pricing, fixed and tracked PV system optimization, and installations on landfills and brownfields. RRC is a member of SEIA (Solar Energy Industries Association) and SEPA (Smart Electric Power Alliance). Services offered include: 03 on Project Development Support

The EAL Level 3 Award in the Installation of Small Scale Solar Photovoltaic Systems is a Vocational Related
