

# School Solar Power Generation Tender Announcement

What is a UK solar tender?

A UK solar tender refers to contracts released by UK tendering authorities for the procurement of Solar products and services. Sign up to get instant access to unlimited UK Solar Tenders with advanced search filters, market analysis, industry trends, and 24/7 customer support.

When will schools be able to apply for a solar PV scheme?

It is intended that all eligible schools across the country will have the opportunity to apply to the scheme by end 2024. The scheme will fund up to 6 kWp of roof-mounted solar PV for all eligible schools, and includes connection to the grid and a monitoring system and display screen.

Why should you bid for solar tenders in UK?

Bidding for Solar tenders in the UK is extremely beneficial for companies of all sizes. The UK tendering authorities release contracts for most of the Solar products and services they procure. It is beneficial to participate in these tenders.

How will a school authority get a solar PV system?

Invited school Authorities will be provided with funding approval from the Department of Education to enter a contract following a competitive tender process for the provision of a solar PV system. This system will be designed, installed and commissioned by a contractor on the SEAI Non-Domestic Micro-Generator (NDMG) Company list.

What is the schools photovoltaic programme?

The Schools Photovoltaic Programme is a devolved programme based on programme guidance prepared by the Department of Education. Invited school Authorities will be provided with funding approval from the Department of Education to enter a contract following a competitive tender process for the provision of a solar PV system.

Can the school authority accept or reject a school PV tender?

The school Authority and/or the funding agency therefore reserves the right to accept or reject any tender received. Tendering contractors should note the removal of VAT from school PV installations, announced in Budget 24 and effective from January 1, 2024.

The scheme will provide eligible schools with six kilowatts of roof-mounted solar PV, which equates to approximately 16 solar panels. Schools will be supported to reduce their ...
