Unlike other types of mounting brackets, ground mount allows solar panels to be installed on the ground instead of on a roof or other elevated structure. This makes it a popular choice for installations in areas where roofs may not be suitable or available. Ground mount brackets are usually made of sturdy materials such as steel.

V. Choosing the Right Solar Panels for Wall Mounting . Picking solar panels for your wall isn't just like picking a new paint colour. It's a bit more involved, but don't worry! Here's a simple guide to help: Size Matters: Look at your wall and think about how much space you have. You want panels that fit well, without looking too ...

The HSB (Harvey Solar Bracket) is suitable for the application of solar panels & Geysers. Manufactured from Zinc-Aluminium coated, High Tensile Steel with a 30mm x 8mm self-clinching stud. No need to "pierce" the Harvey Tile and risk a leaking roof. The HSB is easily fitted onto a timber or steel batten.
