

Solar Camera Bracket Battery

Why do I need a solar panel to charge my camera?

After connecting this solar panel to the battery camera, it can absorb more sunlight and get an uninterrupted power supply to keep your camera working good. There is no need to remove the camera and charge it when the battery power is low.

How do I install a solar panel on a Blink camera?

Place the mount in direct sunlight with the included kit or with no-drill installation (required hooks and Sync Module 2 sold separately). Flexible placement: pivot the solar panel when attached, or detach it and move it up to 60 cm away from your camera. Compatible with Blink Outdoor cameras only.

How does Blink solar panel mount work?

Blink Solar Panel Mount uses power from the sun to continuously charge Blink Outdoor - our wire-free smart security camera (sold separately). Set it up yourself in minutes: connect Blink Outdoor (sold separately) to Wi-Fi and follow in-app instructions.

Are ieGeek camera & solar panel compatible?

Both the ieGeek camera and solar panel are brilliant products. This is not compatible with all battery cameras, mine is a micro USB connection, no adapter included. So far, so good.

Does the ieGeek solar panel come with a cable?

Comes with Cable: The ieGeek solar panel comes with mounting accessories and a 3-meters power cable. Free shipping on all orders. Ship to UK Only. Compatible with ieGeek/Zumimall/DCT/COOAU/ZEEPORTE/ieGeek/ROLLGAN/mibao/XTU/Adorbee/SEHMUA/EUKI and other battery security cameras (with Micro USB Port). Removal of wires is not supported.

How do you mount a solar panel?

Mount your solar panel on the wall or roof and adjust its angle flexibly to capture enough sunlight with an angle-adjustable bracket. The premium solar panel constructed of monocrystalline silicon cells harnesses the sun's energy with more efficiency than traditional panels, keeping your devices charged and ready.

So if you need 24/7 recording, we recommend picking out a high-end solar-powered camera (which can be very expensive and only meant for remote locations) or switching to a wired option with support for an NVR.
