

Solar ground mount price

How much do ground-mounted solar panels cost?

Earlier, we touched on how ground-mounted solar panels tend to be more expensive than roof-mounted varieties - specifically, around 25 to 35 per cent more. But how much is that exactly? Well, estimates place the cost of a typical ground-mounted solar array in the UK at between £10,000 and £15,000 (and that's not even including installation).

How much does a ground-mounted solar system cost?

Ground mounted solar panels are 20%-25% more efficient than rooftop solar panels, as they can be positioned in the ideal direction and angle to maximise energy production and they have a lower degradation rate. The cost of an average 4kW-5kW ground-mounted solar system for a 3-bedroom house in the UK ranges from £8,500 - £10,200.

What are ground mounted solar panels?

Ground mounted solar panels are installed on the ground instead of the roof. For example, you could have ground mounted solar panels installed in the garden of your house, these are called garden solar panels. Solar panels are an increasingly popular choice for clean energy production in the UK.

Are ground-mounted solar panels more expensive than roof-mounted?

According to Solartherm UK, ground-mounted solar panels can be 25% to 35% more expensive than roof-mounted ones. The reason behind the added cost is that ground-mounted systems require more materials and take more time to install. In a roof-mounted solar panel system, the roof is a pre-existing supporting structure.

Are ground-mounted solar panels a good option?

Ground-mounted solar panels are a benefit-rich alternative to the rooftop-mounted variety. You'll just need around 20-30 sq m of space (for an average 3-bedroom home) - and a decent budget. At around £10,000-£15,000 per system, ground-mounted panels cost 25-35 per cent more than their roof-mounted counterparts.

Should you choose a ground-mounted solar panel system?

In many cases, the best option is a ground-mounted solar array for your home. While the rooftop solar panels are the most common choice for homeowners, there are actually quite a few reasons you should take the time to consider a ground-mounted solar panel system instead.

How much does a Ground Mount Solar System cost? There are extra costs involved for a properly installed ground-mounted solar system compared to installing panels on a roof. For a straight-forward ground mount ...
