

Solar powered mobile toilets

What is a solar powered toilet?

Designed and built in the UK, these solar powered toilet units are perfect for remote site locations - they are self-contained and up to 96% CO₂ efficient. The roof mounted solar PV panel converts sunlight into electricity which is stored in a battery bank and powers the in-built systems.

Are solar-powered portable toilets a good choice?

They are the only solar-powered portable toilets for hire which come complete with integral tanks and the absence of a generator means these cost-effective solar loos have very low servicing costs. With a minimum hire period of only one week, a Garic solar loo is the ideal solution for all your temporary toilet needs.

What is a Solar Toilet Pod?

The Solar Toilet Pod is a self-sufficient toilet and bathroom unit that combines solar power with an efficient LPG Gas boiler. It is ideal for secluded construction site locations and features a patent-pending hot water system. This creates an energy-efficient portable toilet with a waste tank and handwashing sink unit.

What makes a solar Loo a good toilet unit?

The solar loo boasts a solid steel construction, reducing the risk of vandalism and disruptions. Built to last all environments. Each Solar Loo 8 toilet unit comes fully equipped with a flushing WC, urinal, hot and cold water, hot air hand dryer and environmentally friendly 12v LED lighting.

What are the features of a solar toilet unit?

Each toilet unit has a solid steel shell with deadlocks on all doors and features including a fresh water flushing porcelain toilet, stainless steel sink, mirror, coat hooks, soap dispenser, toilet tissue dispenser and an integrated first aid box. The solar loo is self-sufficient, with an in-built efficient heating and hot water system.
