

Subsidies for Chinese solar power companies

Will the IRA subsidize China's solar industry?

"Given China's dominance of the solar industry, IRA solar subsidies, grants, and tax credits could be used extensively on Chinese solar panels and solar panel components," Rubio said. "We are deeply concerned that the American taxpayer will be subsidizing China's solar industry" with the IRA.

Are Chinese solar panels unfair competition?

Longi Green Energy Technology Co. solar panels on the roof of an office building in Xi'an, China, pictured in March 2023. The European Union has launched investigations into two groups of companies that include Chinese solar panel makers in the latest salvo against what it suspects is unfair competition from China's vast manufacturing sector.

Is the inflation reduction act a deal for Chinese solar companies?

If you're a Chinese solar company, the Inflation Reduction Act (IRA) has a deal for you. Concern over U.S. government support of China companies is growing. But for now, the over/under on Chinese green energy companies losing IRA support favors China. That's because China has made itself as indispensable as OPEC in the green energy business.

Can China meet global solar demand in 2024?

Xuyang Dong of Climate Energy Finance, an Australian think-tank, said that "China's estimated wafer, cell and module capacity that will come online in 2024 is sufficient to meet annual global demand now through to 2032. This shows an immense domestic solar production oversupply, which has resulted in price slump in solar components".

Why are Chinese solar panels being shipped to Europe?

Tough tariffs against Chinese imports in the US means that most excess panels are shipped to Europe. Xuyang Dong of Climate Energy Finance, an Australian think-tank, said that "China's estimated wafer, cell and module capacity that will come online in 2024 is sufficient to meet annual global demand now through to 2032.

Did EU subsidies make 'unduly' competitive offers when bidding for a solar park?

The European Commission, the EU's executive arm, said Wednesday that it would assess whether foreign subsidies enabled the two consortia to submit "unduly" competitive offers when bidding for a contract to build and operate a solar park in Romania partly funded by EU money.
