

The truth about free photovoltaic panel installation

Are free solar panels a good idea?

If you're looking for free solar panels, or at least solar panels with less cost upfront, solar leases, solar loans, and community solar are good options. Regardless of its "do-good" image, the solar industry is a for-profit enterprise like any other.

Are free solar panels a scam?

If free solar panels sound too good to be true, it's because they are. Solar panels cost money, and these ads are, at best, misleading attempts to push solar leases and, at worst, complete scams. In this article, we'll pull back the curtain on free solar panel claims by comparing solar leases with solar purchase options.

Are free solar panels a lie?

While the word "free" implies there are no associated costs, this is not usually the case with free solar panel offers. "I have never seen an advertisement offering free solar that is not a lie," said Neil Gallagher of Brighterway Solar, a solar installation company in Florida.

Where can I get free solar panels?

Some local cities and counties also offer direct rebates to help with the upfront costs of solar panel installations. If you're looking for free solar panels, or at least solar panels with less cost upfront, solar leases, solar loans, and community solar are good options.

Does the federal government offer free solar panels?

The federal government does not provide free solar panels, but does provide incentives that reduce the cost of going solar. You can go solar with no upfront cost by taking out a \$0-down loan, signing a lease or PPA, or subscribing to a community solar farm. Of the no upfront cost solutions, \$0-down loans provide the best long-term savings.

Do you own solar panels with a "no cost solar" agreement?

You will not own the solar panels with one of these "no cost solar" agreements. In other words, solar leases are essentially like renting solar panels. The solar company handles all of the installation and maintenance for a specified term, which is usually around 20 to 25 years.

The truth about free solar panels in New Jersey ...
