This solar wall lamp is a perfect decorative lighting for gardens, patios, paths, and balconies. It can easily be assembled on a wall or a fence. This solar wall lamp is equipped with an AA battery charged by the sunlight. During the day the solar panel converts daylight into electricity and recharges the battery.

Most solar wall lights have a small solar panel on the top that collects energy from the sun. The solar panel converts that energy into electricity, which is stored in a battery inside the light. When it gets dark, the light turns on automatically and uses that electricity to power the LED lightbulb.
