Firstly, Power Grid Recharged does feature some component upgrades, at least when compared with the older version of Power Grid that I have played in the past. The inclusion of slightly more attractive pieces to represent each resource is more or less the key difference between the older version and Recharged, although there are also a few minor rules tweaks ...

Power Grid Recharged is the latest version of designer Friedemann Friese's Funkenschlag. This is a brand new version though it incorporates some changes brought in in the deluxe edition. Published by Rio Grande Games the game sees 2 - 6 players spend 2 hours becoming power barons; using oil, garbage, coal, nuclear and green power plants to supply ...

This expansion must be played with Power Grid: Recharged or Power Grid and is compatible with most map expansions. The expansion is a new set of power plant cards that may be used in several ways: use the new deck instead of the original; use both decks, but just one of each number, chosen randomly,

* Starting market is now set up using a selection of 8 random cards from power plants 3 - 15 instead of 3 - 10. One additional power plant is set aside to go on the deck from that pool (instead of #13). * Removal of power plants dependent of # of players takes from both the remaining starting pool and the remainder of the deck.

The new power plant cards and the errata for any changes which is on BGG? The map itself with the market on the bottom should be unchanged and the refill amount is the same as what is in the rules? From what I can see the only real change on the map is a space to place a card with the refill amount for player count and the turn order has two rows so you can move a player down ...
